

JONATHAN BONNER

Prince Jona | Software + creative engineering

princejona.me/work | intervised.com | contact@intervised.com

Founder and lead engineer at Intervised. Build useful public interfaces, local audio workflows and artist-facing web experiences with clear scope, inspectable artifacts and practical handoff.

CURRENT EXPERIENCE

Intervised LLC - Founder & lead engineer | 2021-present

Software and creative workflow development, public web interfaces and artist website work. Focus on understandable behavior, recoverable local state and a defined delivery scope.

SELECTED PUBLIC WORK

JonaAudio - Local browser audio workspace

Waveform/spectrum, tempo/key estimates, sampling regions, reference-note planning, on-demand level and reference measurements, worker WAV export and session metadata relinking. M6 records 39 regression checks and Chromium synthetic-WAV import/export/relink evidence; physical-device, long-original-media and musical-quality acceptance remain limited.

princejona.me/work/cases/jonaaudio

Universe - Public discovery and editor navigation

Shared catalog, keyboard search, task routes and responsive navigation. Editor returns preserve local editing contexts or await metadata saves. S0/S1 records 45 Node checks and Chromium navigation/layout evidence. Craft engine work retains upstream attribution.

princejona.me/work/cases/universe

Heartz4Sale - Artist website contribution

Public artist web presence for Hbkrevenge across releases, merchandise and show-related discovery. Artist brand and content belong to their respective owners; no commercial-growth statistics are asserted.

SKILLS

Public project evidence: JavaScript modules, static HTML/CSS, Web Audio API, Web Workers, IndexedDB-aware recovery, Node regression checks and Playwright browser checks.

Additional owner-reported skills: TypeScript, React, Tailwind CSS, Node.js, Python, SQL, REST APIs, MongoDB, Gradio and Docker. This inventory does not imply every technology appears in the projects above.

SELECTIVE EARLIER EXPERIENCE

Hostos Community College: IT support / media design | September 2019-June 2020.

JobsPlus: IT support / tutoring | 2017-2018.

EDUCATION & TRAINING

General Assembly: Software Engineering Bootcamp | January-May 2022.

Borough of Manhattan Community College: Human Services coursework; no completed degree claimed.
